

# LOADMASTER RISK ASSESSMENT TOOL HOW-TO GUIDE

The following steps will assist you in completing a Loadmaster Risk Assessment Tool (LMRAT) using the FRMP support portal

1) Select Tail Number from the drop down menus and list the Flight Number.

3) For Sleep quality: select Good if you felt completely rested and ready to go. Select Fair if you had to hit “snooze” or needed some time to get going. Select Poor if you hit “snooze” more than once or needed coffee or another legal stimulant to get moving or really didn’t want to get out of bed.

## Loadmaster Risk Assessment Tool (LMRAT)

Tail Number	N176CA ▼	Flight Number		Wake Up time (use Z time)	00:00 ▼	Sleep quality	Select ▼
Duty On	00:00 ▼	Duty Length	<input checked="" type="radio"/> Standard <input type="radio"/> Extended	Planned Inflight Rest?	<input checked="" type="radio"/> Yes <input type="radio"/> No	# of Time Zones Crossed (or shift of Wake Up Time)	Select ▼
Consecutive nights worked between 0200-0600	Select ▼	Training Currency	1 to 2 years ▼				

2) Select the time nearest to when you woke up from the drop down. For Duty On select the time you reported for your Duty Period.

4) Select the applicable choices for the remaining items and enter any comments about the flight duty day.

5) Check the boxes for the risk items applicable to your duty period.
